Sana Iqbal

Karachi, Pakistan | sana.iqbal@example.com | +92 300 0000002 | github.com/sana-iqbal-demo

Summary

Junior developer with 2 years of experience building web backends in Node.js. Looking to grow into larger API projects.

Skills

- Languages: JavaScript, SQL, some Python
- Backend: Node.js, Express, REST APIs
- Databases: MySQL, basic MongoDB
- Tools: Git, GitHub, Postman, VS Code

Experience

- **Junior Web Developer, BrightLine Tech (2023 - Present)**: Built CRUD APIs with Node.js, Express and MySQL for internal tools. Fixed production bugs and helped write API documentation.
- **Intern, BrightLine Tech (2022 - 2023)**: Supported the team on small backend tasks and database queries.

Projects

- **Library management system**: Express and MySQL app with login and book search.
- **Student portal**: Simple REST API with basic form validation.

Education

BS Software Engineering, NED University, Karachi (2018 - 2022), CGPA 3.1/4.0
