Hamza Rauf

Lahore, Pakistan | hamza.rauf@example.com | +92 300 0000001 | github.com/hamza-rauf-demo

Summary

Backend developer with 5 years of experience building and deploying REST APIs with Node.js, Express and MySQL. Comfortable with Docker, JWT authentication, automated testing and CI pipelines.

Skills

- Languages: JavaScript, TypeScript, SQL, Python
- Backend: Node.js, Express, REST API design, JWT authentication, role-based access control
- Databases: MySQL, PostgreSQL, Redis
- DevOps: Docker, Docker Compose, GitHub Actions, Nginx, Linux
- Testing: Jest, Supertest, Postman
- Tools: Git, GitHub, Swagger/OpenAPI

Experience

- **Senior Backend Developer, Nexa Systems (2022 - Present)**: Designed 40+ REST endpoints in Node.js and Express serving 50,000 users. Containerised services with Docker and cut deployment time from 40 to 8 minutes. Added JWT auth with role-based access and raised test coverage to 85% with Jest.
- **Backend Developer, Orbit Soft (2020 - 2022)**: Built MySQL schemas, optimised slow queries (up to 6x faster) and integrated third-party payment and email APIs. Wrote API documentation with Swagger.
- **Intern, Orbit Soft (2019 - 2020)**: Fixed bugs and wrote unit tests for an Express backend.

Projects

- **Resume screening service**: Node.js and Express API that parses PDFs and scores candidates, using MySQL and Docker.
- **Order tracking API**: Role-based REST API with JWT, Redis caching and 90% test coverage.

Education

BS Computer Science, FAST National University, Lahore (2016 - 2020), CGPA 3.6/4.0

Certifications

- AWS Certified Cloud Practitioner (2023)
- Docker Certified Associate (2022)
